Announcement

Green Motors Practices Group rebate program

As the first Green Motors Practices Group certified motor shops in BC we are pleased to offer you outstanding motor repair services that meet or exceed the original efficiency rating of your motor. Qualifying motors; 15-500HP AC Induction up to 4160Volt.

What does this mean to you? It means you will get money back in the form of a credit on your invoice for any of your motors that qualify for this program. Beaver Electrical in partnership with BC Hydro and the Green Motors Practices Group will rebate you \$1.00 per HP for qualifying motors that are rewound by us. You will receive this rebate in the form of a credit on your invoice. Nothing to apply for and, nothing to wait for; simply by sending us your motors you will receive this rebate. See sample below.

Let's assume a 400HP motor:

Standard rewind price:	\$ 9,000.00
Qualifying rebate:	<u>\$ 400.00</u>
You pay:	\$ 8,600.00

In this example you save 5% of your normal rewind cost simply by using Beaver Electrical Machinery Ltd. In today's tightening economy every dollar saved helps you meet your bottom line.

Feel free to give us a call if you would like more information or simply send us your motors and start receiving the rewards.

If you are already sending us your motors you will automatically qualify, nothing more is required. Thank you for choosing Beaver Electrical Machinery Ltd.

Yours Very Truly

Beaver Electrical Machinery Ltd.
